

Bethany gift

Pictured here are Bethany students giving “baby” a bath. This toy is an example of some of the equipment that has been provided through donations from United Way, Sydney. Over the last 4 years United Way has donated \$32,000 to the Bethany program for the purchase of items such as manipulative equipment, touch screen computers and additional therapy hours. We thank United Way for their significant and ongoing support of our early intervention program that provides services to 33 children and their families in the Camden/Wollondilly areas.
