

## CRYSTAL'S CARDS

**M**y name is Crystal Abigail. I am in the Year 9/10 class at Mater Dei. I am 16 and have been coming to Mater Dei for the last 4 years and I really like it because the teachers are nice and I get to go out on Community Access.

I love to draw. Two of my art works have been sold at

Foundation dinners. I felt great when this year's one was sold for \$5,500, because the money was going to the new playground at Mater Dei.

My teacher, Jim Good, and my friend, Sue Livingstone, thought it would be a good idea if I made some Christmas cards this year. I designed some cards and twelve were selected to be printed and sold. With help from Camden

Printing and Mater Dei staff I have made up two different packs. Each pack contains seven cards and envelopes for which I charge \$10. Each pack costs me just over \$5 to make.

I am keeping the profit from this project because my teacher is hoping that this will help me to understand the relationship between money and work.

One day I hope to get a job in

line with my artistic abilities and interests.
